

Fitzy Colour Run – Sponsorship Money Update

We are still open for donations until the 4th of October, so you still have time to get more if you want to. If you still have cash donations at home, please bring these into the office with your child's name and class on it, we will add these

into final amount your child has raised and they will be included in the amount they can choose a prize from, on your online page there is a section for cash donations, drag this along to what you have brought into the office, after the 4th of October we will check off cash donations against what you have added to your online profile, once this has occurred and we have checked everybody off, it will be then sent off to process the prizes for the children.

Currently if you try and select your prizes online you will not be able to, this is because we are still open to donations until the 4th of October. If you have already brought in your cash along with your prize selection form, don't worry we will enter those prizes for you after that date.

After the 4th of October you will have one week to make your prize selections online, please ensure that it is completed in that timeframe. If you are unsure or have any issues with the online ordering you can call the Fundraising Group direct on 1300 733 788 and they can assist you to complete this process. Remember if you are ordering "Multi" Prizes, so that is a prize from more than one price bracket, you must order from the largest prize bracket first, down to the smallest.

Once all prizes have been ordered and all cash has been checked off prizes will be ordered and delivered to school, at that point we will collate them and pass them onto the children concerned.
