Our initiatives include

- Provide professional development, coaching, sharing of best practice and strategic use of resources that support differentiated reading, writing and numeracy instruction.
- Analyse student data to develop individualised learning plans, to guide differentiated reading, writing and numeracy instruction, to inform early intervention and to monitor performance.
- Expand learning opportunities that engage and extend high performing students.
- Promote a positive learning culture and communicate high expectations across the school community.

Our school will improve student outcomes by

- Engaging additional specialist educators to provide differentiated reading, writing and numeracy instruction for individuals or small groups of students performing below and above year level expectations. \$168,000
- Creating a professional development program around reading, writing and numeracy data analysis and differentiated instruction. \$90,200
- Purchasing of additional resources that support differentiated reading, writing and numeracy instruction, such as expanding the library collection and problem-based mathematics materials. \$14,162
- Developing and supporting initiatives that encourage school community engagement in a positive, high expectations learning culture, such as weekly Parent Learning Café workshops. \$2,000
